## SOGCE- SPE KLS NextGen Energy Leader & Energy4Me Programmes

The NextGen Energy Leader Programme invites Young Professionals of 36 years old of age or less than 10 years of work experience to engage in industry discourse with distinguished energy professionals and network with like- minded peers.

Energy4me is an educational program that educates the public about energy and puts a face on the industry. Energy is a critical issue worldwide, and SPE believes face-to-face contact is the ideal way to spread the word about energy conservation, the future of the oil and gas industry and its impact on the planet.

**Sabah sets 80:30 OGSE target**

**KOTA KINABALU:** Sabah has set a target to award 30 per cent of Oil and Gas Services and Equipment (OGSE) spending within Sabah to qualified Sabahan companies, said State Finance Minister Daulat Seri Maulit Manjun.

"To further boost local participation, Sabah has prodded them to the formation of a Local Content Council to enhance the investment of local businesses in the sector.

"With the support of Petronas and local Production Sharing Contract (PSC), the State aims to achieve 80:30 Sabah employment and local content (OGSE) industry for this year.

"These developments look well for local companies and will provide a boost to the Sabah economy," he said.

Maulit also said that Sabah will also set up an Energy Skills Development Centre (ESDC) to train and develop local talent in the oil and gas sector.

"The centre will provide training and certification for local workers in various roles, including drilling, production, and maintenance," he said.

"These projects collectively demonstrate our efforts to drive economic growth and prosperity," he said.

Maulit also announced the signing of a Memorandum of Understanding (MoU) between companies and government, which will support the development of the oil and gas sector in Sabah.

"This MoU will focus on enhancing local content, providing training, and supporting the growth of the oil and gas industry in Sabah," he said.

"These initiatives are part of our commitment to ensure that Sabah remains a hub for investment and economic growth," he said.

"We will continue to work closely with the oil and gas industry to ensure that Sabah remains a competitive and attractive investment destination," he said.

**Petronas has big Sabah plans**

**Sheriff Jeffrey KOTAWALLI:** National oil company, Petronas, has aggressive plans to boost the country's oil production and expand its energy sector with particular emphasis on Sabah.

"As a reliable energy supplier to the world, especially through LNG, Petronas remains steadfast in our intention for Malaysia to achieve a production of two million barrels of oil per day by 2025 and beyond," said Petronas Malaysia Petroleum Management Services Vice President Datoh Bacho Piong (pic).

He said this in his keynote address at the 11th Sabah Oil, Gas and Energy Conference and Exhibition 2024 held at the Sabah International Convention Centre.

"The state's investment commitment by the upstream industry in Malaysia is set to reach a record high of over \$100 billion and Sabah is poised to play a crucial role in this expansion, hosting the only two floating LNG facilities in the country, with a third under construction.

"These investments are not just about our operational investments, they focus on energy that is reliable, low cost and low carbon," he said.

"This commitment is underscored by the nation's projects slated for 2025 and beyond, which include opportunities in liquefied natural gas, deepwater development and several major projects in Sabah, including the ambitious Commissioning of the East Phase 2, Sipa Water Injection Phase 2 and Block H Phase 1b.

"Sabah is a land full of opportunities. This is demonstrated with the commission of the Malaysia Rail Road (MRR) 2024 where PSC was awarded to PKA, DPM and SMI Energy and the Sabah Water Tower was awarded to PPKM," he said.

"We have two exploration blocks and 20 PSCs on offer in Sabah for MRR 2024, namely Block B and Block 88/95. This time around, with modern technology and more data, I believe we can make it happen," he said.

"I am expressing optimism about these prospects.

"Sabah is also investing in improving data quality to attract investors by specialising seismic studies to improve subsurface imaging quality.

"With better data, we can attract more investors in these focused areas to improve our data quality, providing clarity and confidence to investors," he said.

"The local Petronas is also working closely with the Energy Commission of Sabah (ECOS) to jointly develop the Sabah East Coast Energy Development Blueprint.

"He described this as a strategic initiative that would not just outline the potential energy development plan in East Coast Sabah, combining both local land and renewable energy solutions, but would also further unlock the oil and gas potential in the region.

"It is gratifying to believe that with all these efforts, together we will be able to continue making Sabah an attractive investment destination for capable and reputable investors," he said.

**Energy: Sabah eyes pole position**

**Sharif Jeffrey KOTAWALLI:** Sabah aims to position itself as a pole position in the energy sector, focusing on renewable energy and sustainable development.

**SOGCE provides an ideal networking opportunity**

**KOTA KINABALU:** SOGCE 2024, the 11th Sabah Oil, Gas and Energy Conference and Exhibition, is set to be a networking hub for industry players, providing a platform for collaboration and partnership building.

"The SOGCE 2024 is a premier event for the oil and gas industry in Sabah, offering a unique opportunity for industry professionals to connect, share insights, and explore new business opportunities," said the event's organizers.

"The conference will feature a series of high-quality sessions, including keynote speeches, panel discussions, and technical presentations, all designed to provide valuable insights into the latest industry trends and challenges."

"We are excited to see an increased number of participants, with approximately 1,000 industry professionals expected to attend the event, showcasing the growing interest in Sabah's energy sector."

"The SOGCE 2024 is not just a networking event; it's a platform for industry leaders to discuss the future of the oil and gas industry in Sabah, addressing key challenges and exploring innovative solutions."

"We encourage all industry professionals to take full advantage of this networking opportunity, as it provides a valuable platform for building relationships and exploring new business opportunities."

"The SOGCE 2024 is a must-attend event for anyone involved in the oil and gas industry in Sabah, offering a unique opportunity to connect with industry leaders and explore new business opportunities."

**Local governments can help meet net zero goal**

**KOTA KINABALU:** Sabah's local governments can play a crucial role in achieving the state's net zero goal by implementing sustainable practices and reducing greenhouse gas emissions.

"Local governments have a significant role to play in achieving Sabah's net zero goal by implementing sustainable practices and reducing greenhouse gas emissions," said the organizers.

"By adopting sustainable practices, such as using renewable energy, reducing waste, and promoting public transport, local governments can significantly reduce their carbon footprint and contribute to the state's net zero goal."

"We encourage all local governments to take action now to implement sustainable practices and reduce their carbon footprint, as this is essential for achieving Sabah's net zero goal."

"Local governments can also play a role in promoting sustainable development and creating green jobs, which is essential for a sustainable future."

"We encourage all local governments to work together to achieve Sabah's net zero goal and create a sustainable future for all Sabahians."

**Petronas is bullish on circular economy**

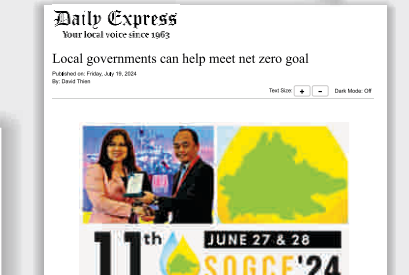

**KOTA KINABALU:** Petronas is bullish on the circular economy, seeing it as a key driver of sustainable development and economic growth.

"Petronas is bullish on the circular economy, seeing it as a key driver of sustainable development and economic growth," said the company's executives.

"The circular economy offers a sustainable and profitable way to manage resources, reduce waste, and create new business opportunities. Petronas is committed to supporting the development of a circular economy in Sabah and Malaysia."

"We are investing in research and development to explore new circular economy models and technologies, and we are working closely with industry partners to promote the adoption of circular economy practices."

"The circular economy is a key driver of sustainable development and economic growth, and we are committed to supporting the development of a circular economy in Sabah and Malaysia."
